

Nadim Mahmud, MBBS, PhD

Associate Professor of Medicine and Bioengineering, University of Illinois at Chicago

Current	University of Illinois at Chicago, Department of Medicine, Section of Hematology/Oncology, University of Illinois Hospital and Health Sciences System, Foundation for the Accreditation of Cellular Therapy
Previous	International Society for Cellular Therapy (ISCT), Department of Medicine, Division of Hematology/Oncology, University of Illinois at Chicago, University of Illinois at Chicago
Education	Mie University School of Medicine, Tsu, Mie, Japan

Dr. Nadim Mahmud is currently serving as an Associate Professor of Medicine and Bioengineering at the University of Illinois at Chicago. He also serves as the Director of the Clinical Stem Cell Laboratory for the University of Illinois Hospital Blood and Marrow Transplant Program. After graduating from medical school in 1989 with the highest rank Dr. Mahmud completed two years of training in internal medicine and was awarded a Japanese Government scholar award (Monbusho) to study bone marrow transplantation. He completed his PhD in 1995 from the Mie University School of Medicine in Japan, where he was also trained in hematology and bone marrow transplantation including a postdoctoral fellowship from the Japan Society for the Promotion of Science (JSPS). Dr. Mahmud joined University of Illinois at Chicago (UIC) in 1998 and was promoted to Associate Professor with tenure in August 2012. Dr. Mahmud has more than 20 years of research experience in the field of hematopoietic stem cell biology and transplantation. Dr. Mahmud and his group have pioneered a novel way to expand the number of transplantable blood forming stem cells present in an umbilical cord blood graft by using chromatin modifying agents and have been awarded a US patent for this work.

In addition, Dr. Mahmud is actively involved with professional hematology and transplantation societies and regulatory organizations including International Society for Cellular Therapy (ISCT) and Foundation for the accreditation of cellular therapy (FACT).
