

Workshop on Coagulation- Basic dos and don'ts in Coagulation, factor assays and inhibitor screening

Date: 2nd Nov. 2017

National Coordinator:	Dr. Srimati Shetty, Mumbai; Dr. Jasmina Ahluwalia, Chandigarh
Local Coordinator:	Dr. Anil Agarwala & Dr. Pranab Deka
Venue:	Ayursundra Superficiality Hospital Bhabananda Boro Path, Ahom gaon, Po: Gorchuk, Guwahati-35
Maximum no. of participants	25

Target participants:

Haematology trainees, post graduate students in pathology, practicing pathologists, laboratory scientists and laboratory personnel with an interest in coagulation.

This workshop will include a few short lectures by stalwarts in the field of haemostasis followed by hands on wet workshop where participants will do both manual tests and handle automated instruments.

At the end of the workshop, participants will have good knowledge of pre-analytical issues and quality control in coagulation, will be able to perform and interpret coagulation tests, will be able to perform factor assays, will be able to detect and differentiate between various types of inhibitors, etc.

Time	Speaker	Topic
9.00-9.25	Dr Pankhi Dutta	Preanalytical variables in coagulation
9.25- 10.10	Dr Jasmina Ahluwalia	Basic approach to coagulation (screening tests, mixing studies, etc)
10.10-11.10	Dr Shrimati Shetty	Factor Assays and Inhibitor Assays
11.10-11.40	Tea	
11.40-13.00	Resource persons/Trainers- Dr Anil Agarwala Sukumaran Deivasigamani Vikas Sharma	Demonstration of Screening Coagulation tests, Factor Assays and Inhibitor Screening Assays
13.00-14.00	Lunch	
14.00-17.30 hrs	Resource persons/Trainers- Dr Anil Agarwala Sukumaran Deivasigamani Vikas Sharma	Hands on training (Screening Coagulation tests, Factor Assays and Inhibitor Screening Assays)
