

Workshop on Flowcytometry in Haematolymphoid Neoplasms

Date: 2nd Nov. 2017

National Coordinator:	Dr. Kiran Ghodke, KDAH, Mumbai
Local Coordinator:	Dr. Anupam Sharma, BBCI, Guwahati
Venue:	To be decided
Maximum no. of participants	25

Target participants:

Haematology trainees, postgraduate students in pathology, practicing pathologists, scientists and laboratory personnel with an interest in flowcytometry.

This workshop will have a few lectures on basics of flowcytometry, normal haematopoiesis, immunophenotyping of acute leukaemia's as well as chronic lymphoproliferative disorders, MRD followed by a post lunch session where participants will be taught to handle the flowcytometer and perform analysis of various cases. The participants will also get to see some rare/challenging cases.

Program:

Time	Topic	Speaker
0830-0900	Registration and Welcome	
0900-0945	Flowcytometry - Basics	Dr. Amar Dasgupta (SRL)
0945-1045	Normal Haematopoiesis – Differential expression of various antigens	Dr. Kiran Ghodke (KDAH)
1045-1100	TEA	
1100-1200	Flowcytometry in Acute Leukemia diagnosis	Dr. Prashant Tembhare (TMH)
1200-1300	Differentiating various Chronic Lymphoproliferative Disorders – flowcytometry is the key...	Dr. Seema Tyagi (AIIMS, Delhi)
1300-1400	LUNCH	
1400-1500	MRD made easy (well almost!)	Dr. Prashant Tembhare (TMH)
1500-1700	Live case analysis (various interesting cases)	
1700-1730	Panel Discussion
